

Crossroads Embroidery Series

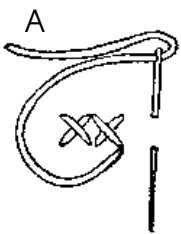

Celery and Tomato

Welcome to the Crossroads Embroidery Series! In the series we share our love for hand embroidery and teach you how to get started stitching. Over the last 25 years Indygo Junction has published books and patterns for home decor, accessories, quilting and garments, and all things thread and needle. Recently we have partnered with Sulky Threads to create a line of 12 weight Crossroads Threads, which coordinate with our Crossroads Denim fabric line.

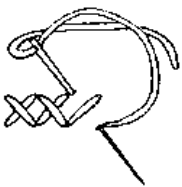

Our founder Amy Barickman's motto is *Vintage Made Modern*, and she has a passion for collecting vintage sewing and needlearts publications. For this series, Amy has paired our Crossroads Threads with embroidery designs from her vast vintage library. Follow along the video series to get free vintage embroidery designs, learn about our favorite tools and practice stitches. If you love these designs, be sure to check out our embroidery books, *Stitched Style*, *Land That I Love* and *Folk Art Motifs!*
