

# Vintage Made Modern Stitcher's Garden

by Amy Barickman

Fabriflair Brio Sphere  
Small & Large

**Stitcher's Garden** is the second collection in my Vintage Made Modern line. I have a passion for collecting vintage fabrics and embroidery and have always dreamed of a fabric line that would combine the two. **Stitcher's Garden** is designed to work with many different project styles, and I have designed a multitude of sewing patterns to work with the fabric, including purses, garments and headbands. Create home decor pieces with our new **Fabriflair** dimensional paper piecing kits!

IJ1124CR Petite Stitched Purse

Some of my favorite pieces in my vintage collection are the ones that feature hand embroidery. To me, embroidery adds a feeling of care and craftsmanship indicative to the time and effort it takes to hand stitch with a needle and thread. Though the designs of **Stitcher's Garden** don't have to be embroidered to be enjoyed, I think the addition of stitching will add a beautiful element to your projects.
